

Solarguard Adjustable Spike

Product Overview

SKU: SOLARGUARD100-1

The plastic base is manufactured from UV stabilized Polycarbonate and the pins are made of stainless steel wire grade 304. The pins are 100mm in length and have a diameter of approximately 2mm. The base is 500mm in length and easy to cut down. Clear and Black base are available. Angels and spacing of pins can be determined from the below diagrams.

Key description and specifications:

1. To stop birds from roosting and nesting under roof solar panels.
2. The Solar Spike system is ideal for solar panels that do not have a lip to the underside. No drill required.
3. Easy to fit, simply apply fixing adhesive to the spike and press in place. Alternatively the speed clips can be used or both in conjunction for the most secured fixing solution.
